Dot net Developer

Description

Squarera is seeking a skilled and motivated .NET Developer to join our development team. The ideal candidate will have experience in designing, developing, and maintaining software applications using the .NET framework. You will work closely with cross-functional teams to create robust, scalable, and high-performance applications that meet the needs of our clients.

Responsibilities

- Develop, test, and maintain applications using the .NET framework (C#, ASP.NET, .NET Core, etc.).
- Collaborate with project managers, business analysts, and other developers to define software requirements and deliver high-quality solutions.
- Write clean, scalable, and efficient code.
- Perform code reviews and provide constructive feedback to other developers.
- Troubleshoot and debug applications to ensure optimal performance.
- Integrate third-party APIs and web services into applications.
- Participate in the entire software development lifecycle, from concept to deployment and maintenance.
- Stay updated with the latest industry trends and technologies to continuously improve your skills and the development process.

Qualifications

- Bachelor's degree in computer science, Information Technology, or a related field.
- Proven experience of at least 2 years as a .NET Developer or similar role.
- Strong knowledge of .NET frameworks (e.g., .NET Core).
- Proficiency in C# and object-oriented programming.
- Experience with front-end technologies like HTML, CSS, JavaScript, and frameworks such as Angular or React.
- Familiarity with database systems like SQL Server, MySQL, or PostgreSQL.
- Experience with version control systems like Git.
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork abilities.
