## Trainee Software Engineer SAP/ABAP

### Description

As a trainee software engineer specializing in SAP & ABAP, you will embark on an intensive training program to build your expertise in SAP systems and ABAP programming. Under the guidance of experienced professionals, you will gain hands-on experience in software development, customization, and maintenance of SAP applications.

### Responsibilities

#### Training & Learning:

Participate actively in all training sessions related to SAP and ABAP.

Study and understand the SAP environment, including modules, integration, and customization.

#### Development:

Assist in the development and modification of ABAP programs.

Support in writing, testing, and debugging code.

Help in creating and modifying SAP reports, interfaces, and forms.

#### Support & Maintenance:

Provide support in troubleshooting issues related to SAP applications.

Assist in maintaining and enhancing existing SAP solutions.

#### Documentation:

Document technical specifications and project requirements.

Prepare and maintain user guides and operational manuals.

#### Collaboration:

Work closely with senior developers, analysts, and other team members.

Participate in team meetings and contribute to project planning and execution.

### Qualifications

Education: Bachelor's degree in Computer Science, Information Technology, or a related field.

Knowledge: A basic understanding of programming concepts and familiarity with SAP systems is a plus.
